

SLUDGE BUSTER

RÉDUCTEUR DE BOUES

2.0

CODE: ENV-2016

Ponds naturally accumulate biomass and fill up over time. Our microbes degrade excess biomass, such as lawn clippings and leaves, eliminating the source of odours and restoring capacity. Should be used in conjunction with Pond Clear (ENV-2020)

APPLICATIONS

- Golf course water hazards
- Fountains
- Lakes
- Water features
- Holding tanks
- Retention ponds

USAGE

Proper dosage is crucial for best results. Our team will design a schedule specifically for your system.

Ponds: Toss recommended number of pouches directly into the pond/lake/fountain.

Our microbes activate within half an hour. Noticeable results may be visible after as little as 1 month.

One ½ lb pouch can treat up to half a million gallons of pond water!*

* May vary based on wastewater quality, flow rate and retention time. See Dosage Table for more information.

PROGRESSIVE SCIENCE

This environmentally friendly and effective biological pond treatment product contains 5 billion bacteria per gram; that's **5.7 trillion** bacteria in each 1/2 lb package!

Our formula contains 5 different strains of bacteria that are highly effective in reducing sludge levels, by metabolizing excess biomass and converting it to CO₂ and H₂O. This product will reduce the need for chemicals, polymers or aeration.

100% BIODEGRADABLE
OECD 301D

NO ANIMAL TESTING
- INGREDIENTS

Safe and effective cleaning products can be made completely cruelty-free. We perform no animal testing and none of our ingredients contain animal products or by-products.

WHAT DOES SLUDGE BUSTER DO?

- Reduces heavy sludge build-up
- Restores water quality and reduces odours
- Removes available nutrients

5 STRAINS OF BACTERIA

BIOLINE

GENERAL DOSAGE INSTRUCTIONS

SHOCK DOSAGE

Ponds: 3 lb per day for first week (M – F)¹. Use in conjunction with Pond Clear (BIO-2020) for best results.

Shock doses establish a healthy bacterial population
¹Recommendation may vary based on water quality

MAINTENANCE DOSAGE

Ponds: 1 lb per day, 3 days/week (M, W, F); spring – fall¹
 Use in conjunction with Pond Clear (BIO-2020) for best results.

Maintenance doses optimize the established bacterial population in the event of increased water volume, flow rate, etc.
¹Recommendation may vary based on water quality

STORAGE & PRECAUTION

 Store in a dry, cool, well-ventilated area

 Store away from direct sunlight and heat

 Store away from harsh chemicals
 Keep out of reach of children.

SHELF LIFE: minimum 1 year from opening

Avoid eye contact. Wash hands thoroughly after handling. Gloves are not required but recommended.

PACKAGING

Available in:
 1/2 lb x 60 pouches ENV-2016B

SPECIFICATIONS

DESCRIPTION	Yellow, free-flowing granular powder
WORKING pH	5.5 - 9.5
TEMPERATURE	Up to 45°C
BACTERIA	4 billion per gram Blend of 5 strains
NUTRIENT	Biological nutrients and enhancers
